

# Wales Nature Week

## 22 - 30 July 2023

Join us on a journey of discovery!

Each person treasures nature in a different way. It could be the myriad colours on the spin of a falling feather; spirals on a shell; the common, the rare, the noisy (and the smelly!). The sight and sound of a meadow buzzing with bees. A sense of calm and well-being

on a woodland walk. A sense of achievement when volunteering for nature or identifying what you see. Wild places remembered from childhood, and places you frequent today - what is your Nature Treasure?

### How to take part

1

**Share images** of the 'nature's treasures' you unearth from your garden, workplace, daily walk or outdoor activity during nature week.

2

**Display the Wales Nature Week poster** in your school or community space

3

**Follow us** on social media, or check back to view the Wales Nature Week events programme as it develops.

4

**Tag your posts**  
**#NaturesTreasures**  
**#WalesNatureWeek** and add your own social media tags

5

**Tell the community** about your personal nature treasure.

## What will you Discover?

Check out the Wales Nature Week web page for further information:
